# WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

## NEWS & TRENDS

**Blight fight goes digital:** Ultimately it may be a low-tech bulldozer that rids neighborhoods of vacant, unkempt buildings. But increasingly cities are using high-tech tools to monitor and manage urban decay. Click for a few examples. [MORE >>](#)

**Cracking the congestion code:** Knowing where your city's traffic bottlenecks are in real time can be helpful. But Microsoft is partnering with a Brazilian university to find out if available data can pinpoint where those traffic snarls will be up to an hour in advance. Learn more about the Traffic Prediction Project. [MORE >>](#)
