S 132 PA Act of 2019 – Davis, Nicholson, Hutto, M.B. Matthews, Kimpson, Alexander and Scott

This bill would amend several statutes to provide that physician assistants may be considered primary care providers or mental health providers when practicing in the medical specialties requiring physicians to be primary care providers or mental health providers. Further, it would clarify the effect on related working relationships and scopes of practice, among other things.

Crossed to the House 3/21/19. Introduced, read first time, and referred to Medical, Military, Public and Municipal Affairs Committee 3/26/19, and received favorable Committee report 5/1/19.

S 303 Mental Health Transport – Kimpson, Shealy, Fanning, Davis

This bill relates to the custody and transport of individuals believed to have mental illness and requiring immediate care; it would require that state or local law enforcement officers who transport these patients be part of a “therapeutic transport unit” and have undergone mental health and Crisis Intervention Training. The bill further requires that the physician responsible for the individual’s care notify a friend or relative of the patient that they may transport the patient to the indicated mental health facility, and that the friend/relative freely chooses to assume responsibility and liability for the transport.

Crossed to the House 4/09/19. Introduced, read first time, and referred to Medical, Military, Public and Municipal Affairs Committee 4/10/19.

S 303 received a favorable recommendation with an amendment in the Medical, Military, Public and Municipal Affairs House Subcommittee. The full “3-M” Committee voted to adjourn debate on the bill 4/30/19, given the number of amendments and the complexity of the issues raised by various speakers at the subcommittee hearing. It appears that S 303 may have stalled in the House; it is certain that it will not move further during the 2019 legislative session.

It would create the Division’s powers, duties, and functions, which would include cooperation with other governmental units, such as cities and counties, or federal agencies concerned with participation in related federal grants-in-aid programs. The bill would further require the Department to submit a written report describing nursing homes, the number of residents received by and discharged from those homes during the preceding year, occupancy rates, staffing, receipts and expenditures, etc., to the Governor annually.

Ratified 4/25/19, signed by the Governor 4/26/19. Effective July 1, 2019.

Legislative Oversight Update

In 2014, the Legislature passed a law providing for the House and the Senate to each, separately, perform a periodic review of all State agencies. The Senate selected SCDMH for review in 2015, issuing its final report in March of 2016. In 2018, the House of Representatives selected SCDMH for study.

The purpose of these reviews is to inform the Legislature in detail about an agency’s programs and operations and to ensure the Agency is operating as the State intended. Stewart Cooner, director of Special Programs and Telepsychiatry, will serve as the SCDMH liaison to the House staff conducting the Study, and employees throughout the Agency will work with him to provide information sought by the legislative staff.

Thus far, SCDMH has provided extensive written background information to the House Legislative Oversight Committee (LOC), as requested. The full LOC took comments from the public at a hearing on January 14, 2019, wherein several advocates provided positive feedback about SCDMH. This testimony and all future hearings is available for viewing at the following URL:

www.scstatehouse.gov/CommitteeInfo/HouseLegislativeOversightCommittee/AgencyPHPFiles/MentalHealth.php

In February, the review began before a four-member sub-committee; SCDMH staff provided in-depth presentations about the Agency’s history and operations. Director Binkley gave an interesting and informative overview of the Agency, its history, and the evolution of mental health care. In subsequent hearings, leadership from the divisions of Inpatient Services and Community Mental Health Services have presented detailed information on SCDMH facilities, programs, and services, which has been well received by the Committee and staff. To date, there have been six sub-committee hearings, the next of which is scheduled for Tuesday, May 7.

Future *Legislative News* editions will include updates on the progress of the Study until its completion.

Budget Update

The Senate's FY 20 budget recommendation concurs with that of the House of Representatives' with regard to state employees in:

- Employee pay – 2% Cost of Living Adjustment
- Health insurance – coverage of entire premium increase for current state employees and retirees
- Retirement – coverage of additional retirement increases

The Senate's budget includes a proviso that would provide a one-time, \$600 bonus for full-time employees earning \$70,000 or less and who have been employed by the State for at least six months.

The next step in the Budget process is Conference Committee, which will take place within the coming weeks. The table below shows DMH's FY20 budget request side-by-side with recommendations from the Governor's Office, House of Representatives, and Senate.
