Governor Nikki Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, SC 29201

Dear Governor Haley,

The EPA's Clean Power Plan represents the single largest U.S. action to reduce carbon emissions, combat climate change and protect people's health. It's a historic step toward the clean energy future we need -- and future generations deserve.

The Clean Power Plan's protections offer ample flexibility in how they're implemented, giving our state the power to design its own clean energy future.

Please do everything in your power to implement the Clean Power Plan in the strongest manner possible here in our state, prioritizing clean energy, renewables and efficiency.

Respectfully,

Ms. Kelly Nightingale  
4427 Montrose Ln Apt G  
Myrtle Beach, SC 29579-6849
