It isn't something with which you all need to be concerned. What they want is a polling place located inside Sun City. I'm working on it with Bobby Bowers. I'm going to introduce local legislation to create the district, but hold the bill on the calendar until the redistricting plans receive Justice Dept. approval. Bobby says it has to be done that way.

The person that ask the questions knows that I am working on this, I think. If you get any other correspondence about it you can just let them know that I am addressing it and the governor will support the legislation. There should be no opposition to in from any quarters.

LOL! Never a dull moment.  
I hope you were pleased with the lunch and school visit.

Do you have any follow up information about the gentleman who asked the question about polling in Lancaster?

Thank you,  
Katherine

Governor Nikki Haley today visited Indian Land Middle School where she discussed the importance of bullying prevention. I wanted to pass along video of the event: <http://www.youtube.com/watch?v=Ecr56JEa3X4>

Katherine -

My campaign manager was at the event and she wanted to ask the governor if that was the first time she had gotten everyone so fired up that it set the fire alarm off (twice).
