Dear Governor Haley,

I do not know if this correspondence will ever reach you but miracles never cease to happen.

Enclosed is my letter to Mayor Joe Riley in Charleston telling him of our plan to erect a monument for those individuals who were shot on June 17th. You will also see some of the work that Tim Schmalz has done all over the world.

I hope that this letter will reach you so that you and Mayor Riley will get together and entertain our proposal to meet with you both so that the mechanics of our programme will be explained.

Keep Going and Growing
