Subject: FW: Protection of first and second families.

He said the letter states that the governor should be protected by other entities, such as local sheriff's offices and local law enforcement.

Thanks for your help on this.

The letter to the editor claims that the first and second families in South Carolina (Gov and Lt Gov) are "currently protected by the Department of Public Safety's Bureau of Protective Services, state troopers, game wardens and SLED agents."

Just want to find out if that statement is accurate.

Thanks so much,

Chris Trainor
