My understanding is that they're just trying to settle and move past the issue. It's EMD's contractors that actually caused the damage but the local government that initiated the alternative site selection without an agreement with the landowner. Becca – is that a fair synopsis?

What is the rationale for paying one-third? I don't see it below.

All,

See below. Both Kim and David recommend the state funding one-third of the repair cost, which is approximately \$17,000. I also asked David to make sure that we draw up a release of liability agreement when payment is made.

With your permission, we will look at identifying the proper account and finalize details for the agreement. Please let me know.

Thank you,

Rebecca

Rebecca,

While I feel that there may be legal defenses to a finding of liability on EMD's part, I do believe that a resolution like that set out below is probably a wise course of action.

David – Please see Kim's recommendation below and let us know your opinion as well. Thank you.

Rebecca,

Please latest update below regarding the Landmark parking lot. I know we briefly discussed this earlier in light of Richland's CDBG grant. However, I think it is in our best interest to pay a third of the cost. I will be glad to discuss with you in more detail.

Thanks!

Regards,

Kim

FYI - looks like they will settle on \$51,200.00

Danielle

Sorry it's taking so long. I've got what I hope is a final meeting with the property owner this Thursday morning. The figure that our insurance adjuster arrived at a couple of weeks ago is 12,800 SF of asphalt to be repaired at \$4.00 SF totaling \$51,200.00. The owner has been apprised of this number and it is my hope that he will consent to it this week so we can move forward to settle the matter. I'll let you know as soon as I do....

Thanks

Mark:

I just wanted to check and see if you had received the estimate for the damage? Thanks!
