Amy,

To answer the following questions: 1. We still put contribute/did not contribute on the "internal" MVR, it doesn't appear on the external. 2. One justification I heard was because of a legal opinion by Pat Teague that he suggested we not use it because of a law suit, but when I spoke to Val he stated that was not correct. He has indicated that there is no legal statutes that would restrict us from showing this information on a record. 3. Yes, we can start again. As a matter of fact I spoke with Sharon Coleman and the trouble ticket has been put in and should be in this push. She is testing now. If everything goes as planned, contribute/did not contribute should appear on MVR's by the end of March or April 1st.

Call me if you have questions.

Thanks,  
Annie

Hey guys,

What should I tell John?

Thanks,

Amy

Amy, Sen Campsen's constituent has a cdl and as i understand the situation he has accidents on his record but did not contribute to them. Before he can get ins. now he is having to get statements to indicate he was not at fault. We used to put contribute/ did not contribute on the record. the questions; 1. do we still put that 2. if not why 3 can we start again. If you email something to me I will get to Sen. Campsen.
