Subject: Greetings from SAP

Hello Christian, Long time no speak! I hope that you and your family have adjusted well to life in South Carolina.

I bet that you might be hearing a lot about the *InformationWeek* article. You may or may not know, but SC is licensed for various SAP software components that would help in preventing these situations. If you would like to discuss, then I would be happy to do so.

Again, hope all is well. Let me know if we can help.
