Subject: Background Checks for AmeriCorps

Kathryn,

In addition to my day job here in the office, I'm the Governor's appointee to the Commission on National and Community Service, which oversees AmeriCorps and other related programs.

Staff at the Commission were hoping they could talk to both of us about the background check process for their volunteers and some statutory tweaks they'd like to make. I'm not entirely up-to-speed on the specific changes they're requesting (or what is prompting them), but I was hoping that I could bring us all together to meet here in the Governor's Office during the week of July 29th. In a perfect world, if language changes are needed, it would be best if everyone can agree to something before session starts instead of having the Commission offer something that SLED would have problems with. The attendees would be Caitlin Carey and Brent Kossick for the Commission.

Are there specific times that do/don't work for you that week? Thanks.

CLS
