To Governors

My eye sight is pretty bad, and I want to apologize that I made a grave error concerning on surplus land government has, will be considerable less. Proceeds from sale will bring down our debt. Every little bit helps the people.

Only change on Exhibit, is removing surplus land figures.

Again, I am sorry for the error.

A handwritten signature in black ink, appearing to read "E J Marnell". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

- News Media, you proud for not reporting despicable actions to the people?
(During my younger years, you believed in the Constitution)
- Every person who wants to become an **American** citizen will speak and write **English** fluently.
- We will have a strong military to protect **America**!
- **America** is not the **policeman** of the world; stop our cost of lives and money to do so. If country wants to go to war, let the people **decide**. If our country is attacked, the President will immediately **declare war**! (In **Constitution**)

!!!Further safe guards, before Abolish - any Supreme Court or Laws violate Constitution, can be repealed by Congress, or President's Executive Order!!!
(Congress Article I sec 1 - President's Article II)Executive Order

Congress Oath of Office

("...I will support and defend Constitution of the United States...")

To accomplish **abolishment**, requires the **majority** vote (not war) of each state, majority of states that vote "**yes**" government is "**abolished**" (**Majority vote by Governors select acting President**, until a new one is elected by the **people**)

Further note consider very seriously **Hispanics**, with help of politicians, have become a large proportion in Arizona 30%, Los Angeles County, CA 48.3%, New Mexico 47%, and Texas 38%. **57.8%** Mexicans live in these 4 States, balance 6% live in 46 states. Believe evidence is **conclusive**! (we are teaching children of **illegal** immigrants, no law can violate **Constitution**)

(We fought a Civil War to prevent states seceding)

Mexico has never forgotten our war with them. They could not develop the land, and called on Americans to do so. Mostly **Texans** did the job. Then Mexico wanted them to give up their land, Texans said, no, and the rest is history! Today, **Hispanics** want **America** to give back this land they once had, and there are politicians who want to do so. (They are very close to making this happen in **America**)

Opportunity of a life time has original Constitution, and build up America from there. What a Country we will have! People, **America** need you now to **vote** change for all the people in **America**!

"Make This 4th of July 2015 the New Start for America's Freedom "

May God Bless You and Guide You!
