Re: The SC Founding Principles Bill

Dear Governor Haley:

Thank you so much for signing the above bill into law. Never since the inception of America has there been such a need for educating the American public, especially youth, about the true intention of the Founding Fathers. South Carolina played such an important part in our nation, and history will be lost, or adulterated, if it is not taught now, and correctly. Knowledge is power. If you don't know history, you are destined to repeat it's mistakes.

I hope Georgia follows suit.

Thank you again for seeing this bill into fruition.

Very respectfully,

PS: You can go to your grave, and never use the first algebraic Equation; whereas, knowing history can keep you alive by preventing you from making a fatal mistake.
