Subject: Health Care ~ Website email from Mdeline Nesmith

---

Lt. Governor Bryant, Republicans have been blessed with ONE LAST chance to do what the voters put them in office to do. REPEAL and Then replace Obamacare. Defund planned parenthood. Restore religious freedom. Cut taxes and enforce immigration laws. I have waited patiently for republicans to be in majority in first house, then senate and now presidency. I believe you can do your job. Step up NOW!! If these things are not done, the Democrats will be back in power and our country will be lost! Get behind the president not in his way. I knew he would have to fight the Democratic liberals, but I am shocked he has to fight his own party. He won and elections have consequences!! I will continue to pray for all of you.
