

15 MAR 2015

Dear Governor,

I know that bill that your political party will introduce raising gas taxes to pay for bridge and road improvements will pass. I have ESP I see the future is how I know. I hope the tax is enough to fix side roads as well. I sure hope you got the letters I wrote you and I hope they will make things better in S.C. If you got them please send me a postcard with your signature on the back I would love to see your autograph. If you want to know who the next President of the USA is you can put a ad in the newspaper saying I wish to talk to some with ESP who can see the future. They'll tell you who it is and you can bet on it and make a whole bunch of money. Love your first name

Sincerely

Michael May

I thought about it off and on about 3 decades and I realized that good luck is not something that Grandma and Grandpa talked about but a science, Those processes being

OreR

I'm sure and certain of it. Acting
employees and state employees about things
that bring good luck pays off real good
try it you'll like it. Good luck!

I wish to tell you some serious news and
information. That interstate 85 here in
Greenville, County has a accident on it
about every 3 days they need to reduce the
speed limit on it to about 60 M.P.H.
