Yes, with regard to the makeup of the guest list. About half the invitees will be from Sun City or Indian Land and active in Republican politics. Those are Roger's invites. Mine will mainly be people from Lancaster proper who helped with my campaigns, as well as some business leaders. We're also inviting all the Republican elected officials from Lancaster County and a few from York County.

Everyone will be able to be seated in one room.

Sounds good to us. Does everyone fit in one room? Or is it multiple rooms where everyone would then move into a larger room.

The guest list would still consist of GOP, community and business leaders, correct?

Thanks, Katherine

I went by to see the restaurant (The Blue Heron) where Roger suggested we have the luncheon. He came over to meet me there and we talked to the staff. Turns out they said they would close all of the restaurant / bar for this event, so we would have 80+ seats. That is the figure we are going to work with for the invitation list if that works for you all.
