Total		13,367,300	15,499,500

The State Board for Technical and Comprehensive Education has deferred action on these projects "until such time as policy and procedures are developed to consider and analyze requests for new campuses. The system has no equitable basis for determining actual need or assigning appropriate system priority." We concur with their action and note further that the Commission must approve any new associate degree programs offered at these proposed sites.
