## ABOUT JOHN LOBELL

Lobell has a widely ranging mind that looks at culture and the arts and sciences as they transform throughout history. He is particularly concerned with how new technologies lead to cultural changes that affect every aspect of our lives.

Lobell studied architecture at the University of Pennsylvania and is a professor of architecture at Pratt Institute in Brooklyn, New York. He

# "Visionaries" by John Lobell on YouTube and Radio

tapping into the energies of the cosmos through creativity.

Join John Lobell and join the dialog each week with some of today's most interesting visionaries looking at the world we live in and the worlds they are creating for tomorrow.

Our shows at <http://visionaries.podbean.com> include:

October 24, 2016 "Bill Katavolos." Futurist William Katavolos is a professor in the School of Architecture at Pratt Institute in Brooklyn New York. He is an innovative futurist, designer, architect, and teacher, and one of the most imaginative minds of our time. His work and thinking ranges from chairs in New York's Museum of Modern Art to 240 mile tall buildings; from furniture made from chemicals with memory to buildings made from water. Find more about Bill Katavolos at:

<http://www.pratt.digitalfutures.info/william-katavolos-the-new-palladio-poesis-versus-noesis-part-1-of-12/>

October 17, 2016 "John David Ebert." Culture and media critic. His many books include "Twilight of the Clockwork God," "Celluloid Heroes & Mechanical Dragons," "Dead Celebrities, Living Icons," and "Post-Classic Cinema," And most recently, a series of book on classic movies, "Scene by Scene ..." We will look at our myths today. Find Ebert's posts at: <http://cultural-discourse.com>

October 10, 2016 “Technological Optimism.”

Technological pessimism holds that our technology is brining us a bleak future. Books like “The Population Bomb” predicted collapse, and such books are still being written. But technology has also brought us unprecedented affluence and information abundance for all. So how should we think about technology? Find a video on Technological Optimism at:

[https://www.youtube.com/watch?v=0VfMt\\_BSfic](https://www.youtube.com/watch?v=0VfMt_BSfic)

October 3, 2016 “Natasha Vita-More.” Advocate for radical life extension and human enhancement.

Natasha is chair of the transhumanist organization, Humanity+, and is a Professor at the University of Advancing Technology. We will look at the future of human beings and the relationship between design, science, and technology. Find more about Natasha on her website at: <http://www.natasha.cc>

September 27, 2016 “Joseph Campbell.” Campbell was a mythologist, writer and lecturer, best known for his work in comparative mythology and religion.

We will discuss Campbell with Bob Walter, the president of the Joseph Campbell Foundation. Find lots of Campbell resources at: <http://www.jcf-myth.org>

September 21, 2016 “Luis Arana.” Luis is senior artificial intelligence engineer for Robots Without Borders. Luis’s focus is building humanitarian AI

systems and robotics to solve widespread problems in society, especially in impoverished and under-served parts of the world. We will discuss how AI and robotics will change our world. Find more at: <http://www.seriouswonder.com/robots-without-borders-conversation-engineer-luis-arana/>

September 15, 2016 “Visionary Creativity.” We look at the role of Visionaries in bringing us new worlds. Visionary Creatives swim in the culture of their day. The things they create—in art, design, science, technology, business—embody their culture and at the same time pull it into the future. Find more at: <http://visionarycreativity.com/wp1/>

ABOUT JOHN LOBELL John Lobell, host of Visionaries on PRN, is the author of the book, “Visionary Creativity: How New Worlds are Born.” Lobell received degrees from the University of Pennsylvania and is a professor of architecture at Pratt Institute in Brooklyn, New York where he teaches courses in art and architectural history, world culture, and technology. He consults on high profile technology projects, is the author of numerous articles, and has lectured throughout the world. His other books include “Between Silence and Light: Spirit in the Architecture of Louis I. Kahn” and “Joseph Campbell: The Man and His Ideas.” <http://johnlobell.com>
