Subject: Please Stand Up to a President Who Puts Our Children at Risk

May 18, 2016

Governor Nikki Haley
Office of the Governor
1205 Pendleton Street
Columbia, SC 29201

Dear Governor Haley,

President Obama and his administration are playing a dangerous political game, and they are willing to put the safety and privacy of every child in America in public schools at risk in order to win.

President Obama's latest decree to get schools to comply or risk losing funding is an unprecedented act that demonstrates he would rather cut education funding for every child in America, than be told by parents and schools that boys should not be in girls' bathrooms, locker rooms, and showers.

Please stand against this agenda. Thank you for your service and for taking a moment to hear my side of the story.

Sincerely,

Mrs. Christine Collins
