HHS Region IV ACA News Bulletin: Friday, February 15th, 2013

Visit HealthCare.Gov and CuidadodeSalud.Gov, two consumer-focused health care websites to: **find insurance options, learn about prevention, compare care quality, and learn about the law.** How is the Affordable Care Act helping you? Share your story [here](#).

Secretary's Corner

◆February 15, 2013

Secretary Kathleen Sebelius announced 27 recipients of new Strong Start for Mothers and Newborns awards, "Thanks to the Affordable Care Act, we are helping communities across the country improve prenatal care for expectant mothers so that they can have a healthy delivery and a healthy baby," said HHS Secretary Kathleen Sebelius. "The Strong Start initiative will help find ways to reduce the rate of preterm births, which is a public health problem with significant long-term consequences for families and children." View the full release [here](#).

◆February 11, 2013

Health and Human Services (HHS) Secretary Kathleen Sebelius and Attorney General Eric Holder today released a new report showing that for every dollar spent on health care-related fraud and abuse investigations in the last three years, the government recovered \$7.90. This is the highest three-year average return on investment in the 16-year history of the Health Care Fraud and Abuse (HCFAC) Program. View the full release [here](#).

Affordable Care Act News

◆February 15, 2013

The Centers for Medicare & Medicaid Services (CMS) released the Marketplace Establishment Grant Awards (CT, NH, UT, VA states for a total of \$8 million). This funding will help States build their Affordable Insurance Marketplaces. View the award summaries [here](#).

◆February 15, 2013

Beneficiaries will get greater protections, value, and care in the Medicare services they receive through proposed policies released by the Centers for Medicare & Medicaid Services (CMS). The 2014 Advance Notice and draft Call Letter takes important steps to improve payment accuracy for Medicare Advantage (Part C) and in Medicare prescription drug (Part D) plans for 2014, without shifting costs to beneficiaries. Since the Affordable Care Act was passed in 2010, Medicare Advantage premiums have fallen by 10 percent and enrollment is expected to increase by an estimated 28 percent through this year. In addition, costs of the defined standard Part D plan will be lower in 2014 than they are in 2013. The standard Part D deductible will be \$310, down from \$325 in 2013, and cost-sharing amounts will also be lower. View the full release [here](#).

◆February 15, 2013

Beginning February 16, 2013, the federally-run Pre-Existing Condition Insurance Plan (PCIP) is suspending acceptance of new enrollment applications until further notice. State-based PCIPs may continue accepting enrollment applications through March 2, and will then suspend acceptance of new enrollment applications until further notice. PCIP will continue providing coverage to more than 100,000 people currently enrolled nationwide. View more information [here](#).

Funding Opportunities

◆February 15, 2013

The Office of Adolescent Health (OAH) announces the availability of Fiscal Year 2013 (FY13) funds for competitively awarded grants for the development and implementation of programs for expectant and parenting teens, women, fathers, and their families. The Pregnancy Assistance Fund (PAF) grant programs are designed to strengthen access to and completion of secondary and postsecondary education, improve health outcomes for mothers and children, improve pregnancy planning and spacing, and reduce the likelihood of

repeat teen pregnancies. View the FOA [here](#).

Healthcare.gov Blog

◆February 14, 2013

Dr. Howard K. Koh posted a blog announcing the HealthMap Vaccine Finder “When we talk about vaccines, most people think of “flu” or “childhood immunizations.” But there are actually a number of vaccines available to protect adults from serious infectious diseases and their long-term consequences. Adult vaccines can prevent diseases such as shingles, pneumonia and whooping cough. The HPV vaccine can prevent cervical cancer. And the hepatitis B vaccine also prevents the liver cancer that can develop as a result of chronic hepatitis B infection.” View full post [here](#).
