

CONFIDENTIAL MEMBER BRIEFING ON THE UNITED NATIONS

EMERGENCY UNITED NATIONS UPDATE

Read This First: You have been selected to receive this update because you have proven to be a loyal friend and supporter of Americans Against UN Control (AAUNC). The United Nations is a threat to American sovereignty and to your freedoms and Constitutional rights. This special update will show you how the United Nations is following through with their anti-American plot gain power and impose its rule on the US. It is absolutely critical that you respond to Director Ridenour by returning your Briefing Release Form by urgent Code Red mail after reading this update. Thank you.

As you may well know, the United Nations was established with the ultimate goal of a one-world government with itself as the head. The UN Charter specifically states:

"All members shall give the United Nations every assistance in any action it takes in accordance with the present Charter..."

In other words, the UN expects its members to provide it with all the money it wants to implement whatever policy it deems necessary...

"...and [all Members] shall refrain from giving assistance to any state against which the United Nations is taking preventive or enforcement action."

What this means is that as a member of the UN, no country shall use its own good judgment to determine which nations need its help without the approval of the UN.

If a nation is not a UN member, the United Nations still claims authority over its sovereignty!

Yes, believe it or not, the UN's Charter says that the United Nations "...shall ensure that states which are not members of the United Nations act in accordance with [its] principles..."

The United Nations is taking steps to create its own army – an army that would cost \$2 BILLION to establish, more to maintain and would be authorized to use military force at the UN's direction.

This is an army that could consist partially of Americans – and could impose the UN's socialist agenda on us by force, pitting American against American at the UN's command.

Additionally, the UN is working on a plan to force America to open her borders to anyone who wants to immigrate to this country!

As a matter of fact, in an effort to force Arizona to open its borders to illegal aliens and criminals, the Obama Administration wrote in a report to the United Nations last year that Arizona's tough immigration laws meant to protect the state's borders are a violation of human rights.

That's right – the Obama Administration and the United Nations think that any criminal, possible terrorist or illegal alien has the RIGHT to cross our border and take advantage of our freedoms and rights while violating our laws or even plotting to kill Americans!

Can you imagine what would happen if the UN's dream of a standing army became a reality and the UN could deploy this fighting force to compel America to open her borders to any criminal or terrorist who wanted to enter this country undocumented and untracked?

This update is a frightening illustration of the sneaky, conniving and underhanded methods being used at the United Nations to undermine the United States and our sovereignty and build up the UN's power and authority. They want our money, they want to control America and they are using every weapon at their disposal to push their one-world government agenda. Please help Americans Against U.N. Control fight this important battle by rushing your most generous donation today. Every dollar helps us fight for you. Thank you.
