Swati reviewed it – it was pretty straightforward. In case we need to walk it back, I'll forward you a copy.

Rebecca,

Looking at getting helicopter assets from Louisiana but they are no longer actual signatories of the EMAC agreement. To accept their assets both Governors have to sign. I think Danielle talked to you about it during the Louisiana floods.

SC National Guard would like to accept EMAC assets from Louisiana National Guard. In order to do so, we will need the Governor to sign this supplemental agreement. This is because Louisiana is not a signatory state of the original EMAC agreement.

Please let me know if you have any questions!

I am working on the cost estimate and offer now for 1099-RR-5195 (2-UH -60), our guard just spoke to someone with your guard about another request for 2 - UH-72, can you confirm that we will be receiving another request for this.

Also due to an issue with our current EMAC Legislation along with the normal EMAC documents (REQ-A's) we are also requesting that your Governor sign the attached EMAC Supplemental Agreement.

Please forward this document to the appropriate individuals for review and signature, if they have any questions or need additional information please have them call our Executive Counsel Danielle Aymond below.
