Maybe this refers to that Gov's Offshore Consortium, or whatever it was called...the thing Jindal was chairing.

Subject: RE: Scheduled Call with Governor McCrory

Good afternoon, Leigh.

I am asked to follow up regarding the call that Governor Haley and Governor McCrory had last week. They discussed the topic of off-shore drilling. There was agreement that North Carolina, and hence Governor McCrory, wants to be an active participant in sharing the vision forming between Virginia and South Carolina and the forthcoming announcement of that vision.

Could you please send the names of those in Governor Haley's administration who are / will be working on this energy initiative, so we can connect them with the team members in our administration with whom they will be working?
