---

Thank you Thomas. Either I or Rebecca Schimsa, also an attorney, in my office will attend. We have another meeting at 10 as well, but we will work it out to have someone at each.

Thank you,  
Richele

Subject: FW: Conference Call This Morning at 10:00 AM  
Importance: High

Richele, Susan and Danielle:

We are holding a telephone conference with Congressman Sanford's office and FEMA officials this morning at 10:00 AM. Attached is the call-in information. Your participation would be appreciated if you are available.

Matthew:

Happy to be a part of it.

10 am works fine for me, and I'll actually be in your Beaufort office bugging your staff.

I think it would be of value to have Gayle on the line (added to the email). She's been in communication with the county on this for a while. I can't speak to her schedule, though.

Gayle, can you do a 10 am call?

Matthew,

Thanks for the invitation. I will be happy to be on the call and may ask a few of the state Public Assistance team to join me as well. 10:00 works great for us if that works for you all.

Thanks,  
Elizabeth

Richard, Elizabeth & Tom:

I spoke with each of you individually on Friday about facilitating a conference call Monday (tomorrow) morning between the appropriate contacts for Beaufort County, SCEMD, and FEMA. I know I have contributed a lot of confusion over the course of the last week with regards to the waiver request for debris removal on private property and the purpose of the call tomorrow would simply be to make sure that we are all on the same page moving forward.

Additionally, I would like to make sure our office is doing all we can to help Beaufort County's application for FEMA assistance move along as smoothly and quickly as possible.

I think the three of us should most certainly be on the call but I would also ask your suggestions on who else should join as well... Please let me know by replying all to this message and perhaps Richard can help us with a conference call in number.

Also, please advise what time works best... I suggest something between 10-11 AM tomorrow.

Thanks, matthew\*\*\*\*\*
