Subject: EVVE Project

FYI

At the AAVMA conference last week, one breakout session mentioned the EVVE (Electronic Verification of Vital Events) project which allows for the on-line verification of vital records such as birth date. If I understand correctly, AAMVA wants to partner with the NAPHSIS organization (AAMVA for Health Care Industry) to allow for verification of vital records.

It doesn't appear that SC is on the list of states that offer this service. We may want to find out if they (Vital Stats at DHEC) are moving in this direction.
