Sure - do you have any time tomorrow? It might make sense to catch-up in advance of her meeting with the Presidents on Wednesday afternoon. I'm in New York on Monday and Tuesday.

With BEA out yesterday, but in anticipation of those numbers significantly improving at the next meeting, would you be willing to talk perhaps again about how we might meld our USC President's plans with the Governor's plans to secure new money for USC and higher-ed in 2015?

Subject: PEBA's Latest Plan Year 2015 Projections

We just received an update from PEBA with their latest projections for the 2015 plan year. These models reflect a smaller impact on the FY 2014-15 budget, but also (speaking to Column II here) a variant on a grandfathered plan in which the allowable inflationary increases in deductibles, co-pays, etc. would be made.

I wanted to pass this along, since it replaces the August projections we shared earlier. Thanks.
