LETTER

Dear Governor Haley,

Hi, my name is Chryshell S. Myers Davis. I am the daughter of Christopher and SaVon Myers Davis. I am the granddaughter of City Councilman Sam and Andrena Davis. Okay... Now that I have addressed all of those formalities that my dad told me to (lol) here's why I'm really writing to you. Your hair and makeup is AWESOME. I mean being Governor and all I'm sure is a really important, cool job. However, I know that behind the scenes it takes work to be Beautiful and Beauty is my passion. Though it would be an absolute honor to meet you, I'm interested in meeting what we call in the cosmetology industry "YOUR GLAM SQUAD". I am a graduate of Dutch Fork High class of 2016. Upon graduation I received my High School Diploma as well as my Cosmetology License through a co-op at Irmo High. In order to continue mastering my cosmetic skills those being knowledge of hair, skin, and nails; I would like to perhaps meet with your stylist team, regarding employment, apprenticeship, and or any advice on having a successful career in my industry. Attached with this letter, I have a copy of my resume as well as my portfolio which contains all of my contact information. Most important as this is an official document with my signature and seal, I humbly request that upon your response I have a return document with your official signature and seal.

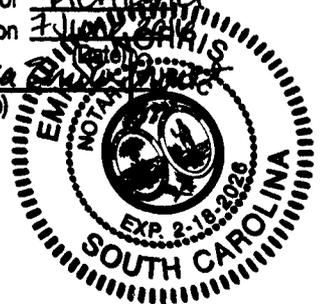

Sincerely,

Chryshell S. Myers Davis

P.S. When my Dad was a Marine at P.I. with the cavemen... lol. He received an Official Letter of Congratulations from then Governor Carol Campbell and he brags to us about it all the time,

so I think it would be kind of cool to have an Official Letter from you. Oh yeah, I have a question ... "Does dark hair run in your family", because you must be around my Dad's age and he's mostly gray... lol. Maybe we'll just keep that beauty secret between us women when we talk. THANK YOU IN ADVANCE.

Objective: I am seeking employment in the cosmetology industry to further build skills and increase my clientele

Work Experience: For 2 years I studied theory and practical aspects of cosmetology at Irmo High School. I started off strictly in the classroom using textbooks to comprehend basic knowledge of healthy beauty skills. I learned the basics of styling client's hair with chemicals and thermal tools, as well as learning how to manage healthy hair. I learned how to apply artificial nails and how to take care of both natural and artificial nails. Also, I learned how to perform facials, facial waxing, and the basics of beautifying with makeup. Throughout my 2 years I have styled several clients using my shampooing, conditioning, and thermal straightening skills.
