---

Sorry, but I can't get out this morning. Now that the legislative session has started up, it's tough for me to get out of here most days. I can talk to you for a couple minutes tomorrow about SIB either before or after I talk to the Public Policy group, if that works. Thanks.

Hi Ted and Christian,

Just wanted to let you know that Megan Golden, our sib researcher from NYU, is in town today and tomorrow. Would love to have her meet y'all as we move forward with this project. She is also helping us prepare the application for the Harvard Kennedy School technical assistance that I forwarded to Christian last week, which we would love your sign off on.

Let me know of any availability later today or tomorrow morning with Megan. Otherwise, I am back in on Wednesday if we could discuss the Harvard application. This would be a great opportunity for us in SC.

Thanks very much!

Joe
