Subject: I appreciate and thank you for your efforts toward fixing the infrastructure!

Dear Nikki Haley (R),

Thank you for your work on a compromise to the roads bill. Please note that roads represent only a portion of the infrastructure which requires attention, pipelines, with its many facets, being but just one other example of another transportation system which requires legislative and executive studied consideration. Please refer to various reports and studies by professional groups such as by American Society of Civil Engineers , National Society of Professional Engineers and others.

Reform to the infrastructure bank is a crucial part of the roads bill. Fixing the infrastructure bank by folding it into the DOT will eliminate the parochialism that got us to this state of road damage and congestion in the first place. It is about spending our resources wisely.

The amendment to give DOT veto power over the STIB selection process is an important step forward. Please continue to support STIB reform and keep the infrastructure bank accountable to the statewide planning process and the people of South Carolina.
