---

Here's the note. I understand they got a new note yesterday that reiterates this figure, but which also shows an even larger revenue growth if we don't pass a new conformity bill.

Likely gets 2<sup>nd</sup> in the Senate tomorrow.

I'm snowed under with ethics stuff – can you send me the fiscal impact statement.

When will this bill get to the floor?

It's Article III, Section 15 that I'm interested in...whether the fiscal note showing a \$3.1 million increase in state revenue means that a bill "rais[es] revenue."
