

Dear Gov. Haley,

my name is Laurent Tremblay  
i'm writting in hopes that you and your office could help me. I have been out of work for 6 years. I have filled out many, many, job applications and also wrote letters and enclosed my resume's to business to no avail I don't even hear back from them. Unfortunately in 2004 I got into some trouble. which was porn & child porn on the internet. one of the sites downloaded a virus and when someone came out to fix the computer they found the child porn and reported it. I did my time in jail, home incarceration, and probation. I have not been in any trouble since. This was 10 years ago. I'm ashamed of what I had done. I got caught up in the porn. I don't have a thing for children and I would not harm anyone. it was a porn addiction. when I was around 12 years old I was molested. before that me and my aunt lived in another state. we moved to South Carolina so she could get away from a physically abusive husband. when we first moved down here we lived with her friend in Taylors. My aunts friend had seven young teenagers at the time older than me. one even at dusk I was walking thru the woods near the house. on one side of the woods was parris elementary school and besides it I think was a high school

Behind the high school were classroom buildings. I walked thru the woods to the open area behind the school there was my Aunt's friend's son Luke Elliott. We walked over to the building he sat on the steps and asked me to do something for him which was a sex act. Afterwards he told me not to say anything because I would get into trouble and me & my Aunt would have no place to go. At other times things continued on with Luke Elliott and one of his younger brothers John Elliott. I never told anyone what happened to me in fear of I would get into trouble & me & my Aunt would have no place to go. Also I thought I had done something wrong & people would think bad of me. About a year or two ago I finally told my Aunt what had happened to me. Since this I have not been able to find a job. I have been severely depressed and contemplated suicide. but didn't go thru with it because I'm a coward. I'm on depression medicine. I talked to a lady (Laytoga Downs) at the Greenville office of vocational rehabilitation rehab. She said she would call me a week later. I waited and heard nothing back from her. I also called and left several voice messages. This has been about a month ago. So I'm writing to see if there's some way you and your office

Could help me? I would greatly appreciate the help as I have tryed everything.

Sincerely,  
Laurent Tremblay
