Subject: Crime/Violence Against Women

PLEASE look at the screenshot from Facebook of **Michele Messer** on the next page. I don't personally know her. I heard about what happened this last weekend (just in passing on the news), and then today SAW and read more of the details.

PLEASE pull her up on the computer and check this out for yourselves. It isn't long.

This is another example of a brutal attack that seems to have not been charged as severely as it should have been. And then the penalties are not severe enough either. This is happening with too much frequency. No wonder people are disheartened to press charges. They already feel vulnerable from an attack or crime. The risk seems to outweigh the outcome. They cannot be protected from the perpetrator. And even if convicted, the criminal may not be detained long and seek retaliation or harm to others.

PLEASE work for the VICTIMS of crimes that there may be justice and protection for them/us. Most of these people WILL find someone else to victimize, attack, and perhaps in their anger kill, leaving loved ones without parents, siblings, friends, etc. These are happening all the time like the double murder-suicide on Wadmalaw Island this last Sunday.

PLEASE, PLEASE work to make a MEANINGFUL difference for people in the future.

Thank you,
Janice Carpenter

I was BRUTALIZED my a man on Sunday, February 7th, 2015 at 3:30 pm. He got me in my van and started punching me everywhere. He bent down to bite me on my face and bit a chunk of my nose off. Then he told me that he had to kill me so no one would know he did this to me. and put his hands around my neck and squeezed, not the mad, out of anger choking. This was calm and calculating. I was able to get my van door open ... See More
