Dear Gov. Haley,

I went broke over last winter, and AT&T shut off my phone. You can reach me on my Obama Phone; (864) 361-9932. My Sister Catherine knows that number, and may be able to look at my call list on her computer, thus discovering that we are in communication.

I don't need to know if Tiki Christophillis is being investigated for using the date-rape drug against me and other victims. To tell me so, would be a breach in security. I get loose-lips after a few beers, and have spilled the beans on hot-hunting and fishing spots in the past.

About that nut-case guy that shot the praying people in Church with a Confederate Flag on, you did what you had to about taking the flag down at the Capitol Building. I would rather see the people blame it on the flag rather than the fire-arm.

I am concerned about Hillary running for Pres. Perhaps you or Sarah Palin could be Trump's running-mate as vice-president. This would steer women voters to vote for y'all rather than Hillary.

I know you don't endorse Trump, but it is what it is. He's there, and getting more popular.

(2)

A true S.C.V. like me does not hate black-people. The best thing that ever happened to our African, was coming to America on a Slave-Ship. They are free and equal. Africans make superior athletes, and musicians. We even have a black President.

They owe a big "thank-you" to the Confederacy for getting them to America.

It will probably be 200 more years before blacks get over being abused, and the N.A.A.C.P. will be no longer needed. They are still crying "Nigger" to us, and want hand outs, and pay-backs for their suffering.

Because of Government Subsidies they have bred like rabbits. Population controls the vote. It has been said that, "The hand that rocks the cradle, rules the world."

I just hope African Americans will forgive and forget about the past and just pick up a tool and go to work to keep the "American-Machine" running.

It makes me angry to see them ~~with~~ in the grocery store with 4-5 little kids, and paying for their groceries with an E.B.T. card.

These 4-5 little kids will grow up and become democrat voters.

I'm a Republican, I had 2 kids that I know of, that's all I could afford as a carpenter and fisherman.

I may have some Bastard-kids out there, don't know for sure?

Sincerely American,
Thomas McLane "Capt. Tom"
