Subject: Burden Creek Bridge Closure

SCDOT,

The issue of possible detours associated with this bridge closure has been brought to my attention by a number of citizen complaints.

Having this bridge completely closed is a serious inconvenience and public safety issue for the residents, employees, visitors and businesses on John's Island, Kiawah Island and Seabrook Island. Detours across John's Island in this area are often not practical and will require extensive drive times in many cases.

Of course, if the bridge is unsafe, we want it replaced as soon as possible but I encourage the SCDOT to consider all reasonable alternatives to closure & detour during that process.

Sincerely, Leon
