Subject: RE: Apprenticeship Proposal

---

Just wanted to let you know that I'm not ignoring you – I still have a placeholder for this in the balance sheet. Just been busy in the past week or so trying to get education funding proposals modeled...and those have a relatively long lead time. I'll get back to you on this, but I think we're on the right track. Thanks.

I'm running around on my BlackBerry right now, but it looks like there's not an attachment?

Subject: Apprenticeship Proposal

Christian: Attached is the "high level" proposal for apprenticeship funding. Sorry it took so long to get it to you. This needed some internal review – which isn't always easy to expedite. Brad and I would be happy to walk you through the concept and our thinking. Also, we would like to understand what you all might be looking at. The apprenticeship tool is remarkably flexible which allows for serving a wide variety of citizens, companies and industry sectors. We are both in the office this afternoon and/or could conference call if tomorrow works better.

Look forward to hearing from you,  
Susan
