Message:

Have we gone out of our minds? Bringing in non citizen Ebola patients for treatment is insane. Taking care of our military who had no choice in the matter is the only morally acceptable thing to do.

Just who is going to put their lives and the lives of their families on the line to treat non citizens. Is the government planning to force doctors and medical personnel to treat them at gunpoint? Why would any sane person do this? If I didn't know better, I would think the government (and you are the government in case you haven't noticed) is trying to spread the virus around in order to cause chaos.

Just because I happen to have the time and commitment to keep filling your in box and others don't doesn't mean they aren't aware of the betrayal this would be.
