Good morning, we are currently at Huntington Beach and loving it here. I have several suggestions that would be very nice additions. First, if lights could be placed in front of the state park signs on 17 .. that would be so beneficial, especially for those arriving at night.

Secondly, if a sidewalk / walkway could be added beside the handicapped site 62 (we are here now) where there is parking for the restroom/ bath house, that would be great. As you know when it rains that area floods and folks have to walk in the water/ mud.

Thank you from your consideration. We will definitely be back.
