Dear Governor Nikki R. Haley:

I will make this brief since you are a very busy man. Enclosed are copies of my two books which I previously sent to you which your "Trump Team" indicated that they placed in your headquarters library for people to read and I thank you for that. But the key issues that I wanted to bring to your attention which are in the books and that you may find VERY IMPORTANT in your campaign is the three documents that I have attached.

**A. The 1997 Congressional Hearings discovered that Bill and Hillary Clinton were forcing illegally at what was called "White House Coffees" potential donors to write checks for Bill Clinton's campaigns before they even left the White House with many of the potential donors not even knowing why they were invited to have "coffee" with the Clintons and all of these "White House Coffees" were always on a private one-on-one meeting so no witnesses were there to prove the potential donors were coerced and "force" to donate campaign funds with the potential donors promised "something" in return IF Bill Clinton was re-elected. Hillary Clinton did not only condone it but participated in the illegal acts as discovered by the Congressional Hearings. (Please read Attachment A).**

**B. Janet Reno who was hand-  
General to cover up their ill  
House Coffees." (Please read**
