Subject: New resource: Guide for Professionals on Practical Strategies for PWD Living Alone

Dear ADSSP and ADI-SSS grantees and collaborative partners,

The National Alzheimer's and Dementia Resource Center is pleased to provide you with a new publication, *Guide for Professionals on Practical Strategies for PWD Living Alone*. The guide can be found at: <https://nadrc.acl.gov/node/98>

The purpose of this guide is to provide practical strategies that can be used to address certain prominent challenges that service providers face when working with individuals with dementia who live alone. The guide's content comes from a literature review to determine the state of the science and current practices implemented with individuals who have dementia and live alone and interviews with subject matter experts who have experience with community programs or services for people with dementia who live alone. These expert interviews informed the strategies addressed in this guide.

Thank you,
National Alzheimer's and Dementia Resource Center
