---

Okay, I will consult with Mr. Gossett.

I believe that Jeff Gossett would be the ultimate authority to answer that question. I am honestly not aware of the process that determines if a meeting is recorded or not. I asked our A/V department head, and he is not comfortable answering that question either.

Thank you,

Would our own recording devices be allowed in the meeting?

Hayden,

I apologize for my confusion. I have just learned that the Senate Judiciary Subcommittee Meeting will not be recorded on our video system. We will be unable to provide a video clip of the Lt. Governor testifying. I am sorry for any inconvenience this has caused.

Thank you,

Hi Hayden.

You are correct that we handle requests such as this. I will notify the correct department, and you will be emailed a link to download the clip of the Lt. Governor testifying. Please note, the video editing process will not be completed immediately after Session. The process may take some time depending on their workload tomorrow.

Thank you,

Good afternoon,

The Lieutenant Governor is testifying tomorrow morning at 9:30 on S.217, the Personhood Act. He would appreciate if a copy of the video could be sent to him, through me, so that we can share it on our social media. I understand that LSA handles all filmed sessions, so I was just hoping it would be possible to get a copy or a link to that feed I would very much appreciate it.

Thank you for your help,

Hayden Grooms  
Manager of External Affairs
