Five Exciting Events Coming Your Way

The to-do list at the office may seem never-ending, but leaving it behind for a deep dive into your industry can pay big dividends. Conferences are fantastic opportunities to learn about the latest technologies and meet potential customers. And now that event season is just weeks away from kicking back into high gear, we thought we'd highlight some of the coolest upcoming events in a range of industries, from solar energy to consumer electronics. You've got time to pack your bags, but don't wait to register!

Looking to find out more about these and other events in your industry and market? Check

out the extensive [BusinessUSA events calendar](#).

Helicopters

Does your business play a role in the helicopter supply chain—providing products, parts, accessories or service?

The Helitech International Helicopter Expo is the largest helicopter exhibition in Europe, and it is full of opportunities for American companies.

For the first time ever, the event will include a U.S. pavilion dedicated to American enterprises. The U.S. Commercial Service, part of the U.S. Department of Commerce's International Trade Administration, is offering networking, matchmaking and other support services to participating U.S. companies.

Date: October 6-8

Location: London, England

Solar Power

Solar power is big business, and it's getting bigger as demand for clean energy technologies continues to grow.

According to one industry group, in 2014 the U.S. solar industry expanded more than 34% as compared to 2013—which was itself a record-breaking year.

Companies that are involved in the solar power industry—or are thinking about getting involved—will want to check out the upcoming Solar Power International conference in Los Angeles. It is ranked as the largest solar trade show in North America!

Date: September 14-17

Location: Anaheim, California

Automobiles and Green Technology

Speaking of being green, you might want to start packing for China if your focus is on clean automotive technologies. The Global Clean Vehicle Summit 2015 will be the first professional international conference of its kind in China, and considering the size of the Chinese market, the opportunities are huge for U.S. enterprises.

The program is being co-sponsored by the U.S. China Clean Tech Center (UCCTC), a U.S. Department of Commerce-sponsored program dedicated to helping American clean technology firms succeed in China's clean tech sectors. UCCTC is providing full travel and compensation packages for up to 20 selected U.S. companies. Register soon!

Date: September 22-24

Location: Changzhou, China

Consumer Electronics

The Consumer Electronics Show—also known as CES—is huge. Really huge. Last year, more than 175,000 people attended the blockbuster trade show, which is held annually in Las Vegas. If you're involved in consumer technologies in any way, it's the go-to event of the year. And although CES isn't until January, registration is now open.

Date: January 6-9, 2016

Location: Las Vegas, Nevada

Commercial Marine

Does the commercial marine industry float your boat? The International WorkBoat Show highlights the best of commercial marine manufacturers, boat builders, distributors and service providers, among others. If your business is built on the water, you'll want to be in New Orleans this December.

Date: December 1-3, 2015

Location: New Orleans, LA
