Wednesday, May 18th, 2016

1PM ET | 10AM PT

You're invited to attend the informative Webinar:
Ready to improve case closure rates?
Collecting, Analyzing and Sharing Digital Evidence

Presented By:
Charles H. Ramsey
Philadelphia Police Commissioner (ret.)
Rod Guy
VP of Strategy, NICE Public Safety

WEBINAR INFORMATION
Date: Wednesday, May 18th, 2016
Time: 1 PM ET/10 AM PT

Are your detectives spending too much time gathering information from different systems to build their cases? Filling out forms, calling and emailing to request information and waiting for others? Unable to effectively search for, analyze and share evidence across unconnected systems?

Join former Philadelphia police commissioner and Washington DC police chief Charles Ramsey as he discusses the key challenges facing police investigation units in today's digital world. Rod Guy from NICE will explain how **NICE Investigate** can help you automate the collection, analysis and sharing of case evidence. You'll learn how it puts evidence into context based on time, sequence and location to help you understand the 'who, what, when, where and why' – to help you close more cases faster and increase successful prosecutions.
