**Subject:** Trash

Nikki your speech tonight was great enjoy it very much. But I have a problem they deliver advertisement paper at people mail box my thing is that a lot of people do not pick them up and it become trash I call Lexington County about and they say its advertisements and it's nothing they can do about my thing is it used to come by mail and put in our mail boxes but I am not going down by the road and pick it up to look at the adv. and if it rains I sure do not want it in my house and when weather permit I have to pitch all these papers up and trash them. First of all my yard is big and I have enough to do beside pick up trash before I cut grass or just to get it up so it does not look trashy on the road and most of the people do not pick it up. If you want our state to be clean we need to stop some of this throw outs and phone books is another one if we could get these two things stop maybe people would get the right idea and not throw out there trash from their vehicles. Thanks in advance for your help in this matter. Sincerely Jean Fallaw
