If

I suggest a meeting with all of us and ask Gov Haley to get involved in this very serious situation . Their is only one way and that's the right way. I will pay for all the experts , lawyers , accountants to fix it all . If we don't we are headed for huge problems for many , which does not include me or my team of professionals . Thx

Nickey in response to your text below ,you simply do not understand the facts. Yes many are concerned about many things and Bill miles running a non profit chamber being paid 400k , 1.7 m home and now a whistle blower says a 2 m home in nc is concerning . All this will be cleaned up . It all has to do with corruption , violations ,abuse to others and waste of public monies . Bill and Lisa are not above the law , just like you and I . This has nothing to do with friendship , church , children growing up or any thing else . One of the big problems we have being a small town in incestuos relationships as reason to justify and allow corruption . Truth and facts only make you look bad to people who are wanting to avoid facts and escape justice . I give a darn what anyone thinks that has hurt and abused others . You need to accept reality which you seem to have a hard time with ! I understand you however because it's not easy understanding all of this and easy to get emotional when fiends are involved .

I enjoy our cutting up , but don't want to see you shoot yourself in the foot being deceived and lied to by others . If Bill and lisa are so great and innocent than they must prove it . Ronald Reagan said trust but verified ?

What shocked me about this email is you calling me to get info from me on a local company I sold and never told me you were friends with both them . It now seems you have elected to be a co conspirator with them . I do not appreciate that deception and never really trusted you and why I gave you all facts and truth so you and your life long friends could not use anything against me as I expose them and seek justice .

Yes you may negotiate all this with Bill on a settlement including Lisa Sulka . Here is what I want . Bill miles does an audit going back 5 yrs voluntarily , adds proper provisions to the contract with David Bennett not Steve riley , Bills friend . Bill stops selling advertising and becomes a true chamber and separate DMO

much more later . Bill agrees to become just the Hhi chamber and get out of Bluffton

Lisa sulka and Marc Orlando will make a public apology . Lisa will either sell equal amount of memberships for the greater Bluffton chamber which I am a proud member of , or pays them a cash settlement for same amount sold for Bill miles . Lisa as futher punishment agrees to recognize the greater bluffing chamber as the official chamber for Bluffton . Lisa ask her buddy Bill miles to leave town , only 1 chamber per city not 2 like the entire USA does it.

Bluffton chamber

Beaufort chamber

Hardeville chamber

Hilton head chamber

Charleston chamber

Etc etc never 2 chambers . Lisa sulka has a lot to learn .

There is more this is good start !

I have no clue about bill or Debbie's home in NC and will not ask anyone. I understand you have Business issues with bill but in my opinion trying to attack him and his family over their home is a personal attack. Bill and his family have been our friends since our children were small and have grown up together and go to church together. The personal attacks such as the one on Lisa Sulka helped her more than it hurt and make you look really bad. It may be time to move on and do more hunting and fishing. As you know I like to joke and cut up and this is just going to far.
