Message:

My Right to Informed Consent is inalienable. The Government must take all necessary steps to support that Right and enforce it.

To FDA Docket No. FDA-2015-P-2149

I support requiring that all drug (including vaccine) package inserts include a clear reference to the Right of the individual to Informed Consent so that none may be forced to accept any medical intervention against their will.

To my Representatives:

As your constituent I am deeply concerned that mandating vaccines and other medical interventions violates my right to Informed Consent. The Government has an obligation under International Law to enforce my Right to Informed Consent. Do not restrict vaccine exemptions as that will restrict my Rights.
