The .pdf at the end drops off when I copy and paste it but when I type that back on their the link works for me - let me know if you want me to fax it over.

Marcia, I got your message...you are a super-busy woman these days - congrats on the new gig. With Real ID it should be quite a year...big article on that in Governing Magazine this month if you haven't sent it - <http://www.governing.com/articles/table.htm>

I was going to ask about recommendations related to the state engineer so glad you just met with him. We obviously have a little more time since you don't need to present til next Thursday now so hope that helps with this week and with beefing up the recommendations some.

Thanks to both of you,

Chad

It's interesting, but I can't find the link on the web page anymore and I can't get the link to work.

Chad, can you?

Chad and Sean,

I am at AAAMVA conference in Florida. I am unable to open the attachment, please send the attachment again. I will send you the report that includes some statistical data tonight.

Marcia

Nope, Marcia, did you see this coming? Quick glance it sure looks like good stuff.
