USGLC: BROAD BIPARTISAN SUPPORT

Why It Matters

In today's interconnected world, America must use all of the instruments of national security and foreign policy at its disposal. America's smart power tools of development and diplomacy are underfunded and undermanned, which is why the USGLC supports a strong and effective International Affairs Budget for:

Protecting National Security by fighting terrorism, stabilizing weak and fragile states, combating weapons proliferation, and promoting global stability;

Building Economic Prosperity by developing international markets, driving economic development, building micro-enterprises, and expanding exports;

Strengthening Humanitarian Values by saving lives, alleviating global poverty, fighting HIV/AIDS and other infectious diseases as well as hunger, expanding educational opportunities, and strengthening democratic institutions.
