With Networkfleet, you can have peace of mind that your government fleet is where you expect them to be. Get actionable data that helps you verify when your fleet is on the job site, optimize fleet usage and increase driver accountability.

Locate Your Fleet Remotely

Networkfleet enables you to verify the location of your fleet at any time from the convenience of a web-based fleet application. Plus, you can view a 24-hour driving history of each vehicle, start/stop times, drive time summary and other detailed reports that enable you to manage your fleet from your seat. [Find out how.](#)

Help Boost Driver Efficiency

When you know where your fleet is, you can send your closest drivers to a job, helping you accomplish more in the course of a day. Plus, when drivers know that you are aware of their whereabouts, they often make more responsible decisions, such as reduce speeding and excessive idle time. [Learn more.](#)

Optimize Vehicle Usage

Operating an efficient fleet starts with knowing where, when and how your fleet is used. Get detailed information that helps you track trends for trips taken, days utilized, miles driven, engine hours and more, so you can make informed decisions about each vehicle in your government fleet.
