

MAY 19 2016

Right Honourable Narendra Modi, Right Honourable Barak Obama, Right Honourable Justin Trudeau, Rt. Hon. Leader of Palestine Rt. Hon. P. M. of Israel,

Re: **A sovereign Independent Palestine State.**

"The only thing necessary for the triumph (of evil) is for good men to do nothing" – Edmund Burke.

We are all witnessing the self-immolation of the U. S. Empire. We are often reminded that self-inflicted wounds are more affective and lasting. The U. S. does not need the Russians or ISIS for its ruination. The Right-Wing U. S. Congress along with the Israelis are more than capable of carrying out this task. Hence, India alone could bring about a transformation by initiating the long overdue change in the establishment of an independent and sovereign Palestine state. Why should it be solely the responsibility or prerogative of the U. S. for this to happen?

Ever since 1948 Israel has demanded that the west ensure its security. Then came the "Two-State" pretext, later Iran, Hamas, and Hezbollah. Israel has used its security as a bogeyman.

I humbly submit that you initiate this bold step in seeking the creation of an Independent Palestinian State. Should you ignore this opportunity, might I remind you that the Indian Congress Party will adopt this in their plank in the next election. They have a stellar record when it comes to Muslims and India's strong Secular State status internationally. If you undertake this honest and bold initiative you could be recognized as the future leader in the international arena. You could neutralize Pakistan's aggressive posture. Historically, India's role in the Non-Aligned movement help avert W. W. III The Muslim and non-Muslim countries will silently acknowledge and perhaps even thank you for your leadership. In 2016 you could unite and lead, Iran, Saudi Arabia, Egypt, Jordan, Pakistan, Bangla Daesh, Syria, Lebanon, Jordan, Indonesia and many North African Islam leaning countries. The Islamic world would never forget this noble gesture of yours.

Isn't it time that we all recognized the outgoing Barak Obama before the end of the year. Please, not after the fact, sermonizing or Thank You. I present this proposal as a Canadian-Indian. The world is certainly on the lookout for leadership based on peace. There is no better proponent or advocate of this change in attitude than President Barak Obama. He has excellent relationships with you in that he visited India twice during his tenure. It is my most sincere appeal to you. Please provide President Barak Obama, this most worthy advocate of peace, his most desired accomplishment. He was the sole leader who had the courage and honesty to call upon Israel to withdraw to the "**Israel of 1967**".

Please take a close look at Canada's 2015 election. Mr. Stephen Harper took a sound trashing from P. M. Justin Trudeau because of the former's lack of international understanding much less leadership. His defeat could be summed up in one word "Israel". He abandoned Canada's long standing peaceful position that was established over the past 30-40 years. One of the main proponents or architects of this policy was the late Pierre Trudeau.

Mr. Modi, I don't expect any western leader to provide this kind of leadership, including the R. C. church. They are still trying to bury their silence over their role when Hitler was on his rampage. However, by the same token Israel has

milked and bilked the holocaust issue for what it was worth. You have no part, guilt or responsibility in this atrocity. Israel has been over compensated for this tragedy by Germany, the U.S. and some European nations. Howsoever, she would like to extend this guilt, ransom and legacy for another 100 years. .

Should you be brave enough to undertake this initiative of Palestine's independence may I suggest that you avoid the U. N. Security Council. Look no further than the initial South African debacle and subsequent success via the U. N. General Assembly.

However, today we have Israeli Apartheid. You don't need Israel, she needs you. The only language Apartheid Israel speaks is War, WAR and more WAR. For this she has the full backing of the "Right-Wing Lunatics" in the U. S. Congress.

As a Canadian neighbour I am forced to witness the ridiculously long U. S. election campaigning.

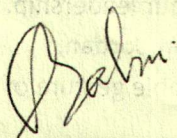

I have provided you and all readers with some pictorial visuals, a picture is worth a 1000 words.

In conclusion, Europeans killed millions of Jews, Palestinians, Muslims or Arabs didn't. In the U. S. "The Right to bear arms" and the NRA. Mahathma Gandhi said, "An eye for an eye and the whole world turns blind".

Canada has come to terms with its despicable treatment of N. A. Indian, the Inuit, and Indigenous people. Canada's P. M.'s. Have apologized on our behalf from the "House of Commons". We have set up the "Truth and Reconciliation Commission" in an admission of and a sincere mea culpa for our grievous errors of the past. America's enigmatic Systematic Racism and a lack of diversity is alive. There is no melting pot. My criticism is directed to most Western politicians, minus, Obama and Canada's P. M. However, in this grouping I unequivocally state that the average American is excluded. When disaster strikes around the world, they are the first with blankets, water, transportation and goodwill. I have travelled through 46/50 states and to most of the large urban areas. These ordinary Americans put to shame their politicians.

Thank you for your valuable time.

Sincerely,

Gerald N. Balm
