How 3D Laser Scanning & Diagramming are changing Law Enforcement, Fire / Arson & Forensic Investigations

Join us for a FREE interactive and educational workshop. Get a first-hand look at how 3D laser scanning and diagramming tools make crime and crash scene investigations faster, easier, and safer. Learn to capture millions of data points in minutes. These solutions are ideal for forensic scene analysis, accident reconstruction and courtroom presentations.

You will:

- Evaluate laser scanners vs total stations and other traditional, measurement techniques
- Discover how quickly you can set up a scanner and begin measuring and documenting a scene
- Watch field-to-finish demonstrations of the latest 3D laser scanning technologies
- Explore how to use software to create accurate, courtroom exhibits from point clouds
- Engage in demonstrations of the most-used, forensic diagramming and animation software packages including FARO Crime Zone, FARO Reality, FARO Crash Zone and FARO SCENE
