

The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, SC 29201

Dear Governor Haley:

I am writing as a concerned citizen of Clarendon County School District 3. I want to express my gratitude for your strong leadership of our great state of South Carolina. Thank you for your desire to improve South Carolina public education by putting more focus on poorer districts.

The purpose of this letter is to express to you our dire need for funding in Clarendon School District 3. CSD3 currently ranks in the top 5 schools in the state for test scores and overall performance. We have been blanketed with awards and achievements. Yet we remain the 2<sup>nd</sup> lowest funded school district in the state. Ironically, in School District 3, we are the 8<sup>th</sup> highest taxed school district in the state based on the millage rate. As compared to the other 2 school districts in Clarendon County, we pay 3-4 times more property taxes in District 3 as citizens pay in Districts 1 and 2. Yet our school (per child) funding is up to 4 times lower. Assessed funding value per child in CDS3 is approximately \$7,000. In District 2 – \$18,000, and in District 1- \$39,000 per child per year.

We have not had art or music in our school district for over 5 years. I am sure you know how valuable and beneficial these programs are to our children. Numerous studies show that children exposed to art and music in schools both behave better in class and perform better on tests.

CSD3 has made cut after cut to try and meet budget yearly while Districts 1 and 2 enjoy the finest of facilities, I pads, marching band, art, music and drama programs while District 3 kids go without ALL of these. Our Girls Softball Team won State Championship 2 years ago and played for the Championship this past year. Yet our Softball fields and sporting facilities are not adequate to support these types of events.

Despite these cuts and our seemingly GROSS underfunding, we manage to outperform Districts 1 and 2 in test scores and overall performance as well as other areas. This not only sends the wrong message to our taxpayers, but MOST of all, our students.

The message being sent should be Hard work + Dedicated faculty = Success and Rewards. Instead the exact opposite message is being sent.

Recently, our School Board proposed to change the language regarding the use of 1% sales tax. The current language allows for the excess money (after school debt has been paid down) to be used for land purchases, building construction and renovations. Clarendon School District 3 asked for the language to be changed slightly in order for the

money to be used for operating expenses as well. We also asked for a larger portion of the money. We hoped this extra money would aid us in operations costs (we have been using our reserves for operations costs) as well as improvements to our school.

We did this in an effort as **NOT to raise/add** any additional taxes to the citizens of Clarendon County and not to financially harm the other school districts in Clarendon County either.

However, County Council (who has the sole power to change the language) as well as Districts 1 and 2 appear uninterested in giving us the ability to use the funds we so desperately need and have requested.

I am pleading, as a heavily taxed citizen of this County, that you intervene and help us find a solution to our situation here in Clarendon County School District 3.

The children of Clarendon School District 3 **MATTER!!!!** We want equal funding for our School District!

Thank you for your time and attention regarding this matter.

Sincerely,

*Garnay Lee B. Morris, Concerned Citizen  
of SDS 3  
Retired Probate Judge of Clarendon County*
